- \*1.If the Medical University of Silesia in Katowice concludes cooperation agreements in the field of clinical rotations carried out in medical entities located outside Poland, the fees for the rotation are paid by students on the terms and in the amounts specified in these agreements, but not more than USD 906 per week per student
2. In the case of clinical rotations, the student covers the costs of transport, accommodation and meals on his own
3. Regardless of the fees related to the rotation referred to in sec. 2, the student is obliged to cover the costs of insurance, including liability civil, health and other services, according to the rules in force in a given country.
